SUMMARY

Final-year Electronics and Communication Engineering graduate (2026) with strong knowledge of object-oriented programming, data structures, algorithms, Java, and Spring Boot. Experienced in developing real-time backend applications and eager to contribute to building scalable, high-quality software solutions while continuously learning and growing as a software professional.

TECHNICAL SKILLS

- Core CS: Object-Oriented Programming & Data Structures & Algorithms.
- Languages & Frameworks: Java, Python, Spring Boot, HTML 5, CSS 3.
- Database: MySQL
- Tools: GitHub, VS Code, IntelliJ IDEA, Power BI, Photoshop, Figma

PROJECTS

Real-Time Network Telemetry Monitoring System

Java, Spring Boot, InfluxDB, Grafana

- Designed and built a distributed, Spring Boot-based telemetry pipeline that collects and processes real-time metrics (CPU, memory, latency, packet loss) across monitored nodes.
- Implemented threshold-based alerting logic with efficient in-memory data structures to detect anomalies with low latency at scale.
- Modeled high-throughput time-series data in InfluxDB and built Grafana dashboards for real-time visualization and performance analysis.

AI-Powered Resume Analyzer & Mock Interviewer

React, Python, flask, Gemini AI

- Architected a full-stack system (React front end, Python/flask REST APIs) that parses resumes, extracts structured skill data, and generates personalized interview questions.
- Built a voice-based mock interview module integrating Gemini AI to evaluate responses and return real-time scoring and feedback.
- Designed clean API contracts between frontend and backend services to keep the system modular and scalable.

Driver Drowsiness Detection System

Java, OpenCV

- Built a real-time computer vision system using face/eye-tracking algorithms to detect prolonged eye closure and trigger alerts.
- Optimized detection logic for low-latency inference suitable for continuous, real-time operation.

EDUCATION

B.E., Electronics and Communication Engineering

2022 - 2026

Rajalakshmi Engineering College, Chennai | CGPA: 7.86

Higher Secondary Education

Mar 2022

Indo-American School | 82.33%

Secondary Education

Mar 2020

Government High School | 86.60%

CERTIFICATIONS & TRAINING

- Digital Skills Readiness Program (Java Full Stack) - Wipro
- Network Management System (NMS) Training - Wipro TalentNext
- OOP in Java - SimpleLearn
- Introduction to IoT - NPTEL
